STUDIO FOR SIRKULÆR ØKONOMI

STUDIO OF CIRCULAR ECONOMY

# Working together for a **green,** **competitive** and **inclusive** Europe.

The »Studio of Circular Economy« benefits from a EUR 776.975,00 EUR grant from Norway. The aim of the project is to increase the understanding of the circular economy in the case of reuse and eco-design of waste and industrial symbiosis in establishing a “circular economy” studio:

- 1. PHASE** Preparing the space and placing used shipping containers on the point carriers
- 2. PHASE** Arranging the exterior of containers according to the principle of reuse waste and industrial symbiosis
- 3. PHASE** Arranging the interior of the containers according to the principle of reuse and eco-design waste without virgin materials
- 4. PHASE** Finishing work of furnishing the interior spaces and the external atrium with the approach of circular economy

## GENERAL GOAL OF THE PROJECT:

- Reduce pressure on virgin materials needs and GHG emissions by increasing reuse and waste design.

## INNOVATIVE APPROACH:

- To establish a new “competitiveness” in society: how to live and create with as little consumption of resources as possible.

## EFFECTS AND SUSTAINABILITY OF THE PROJECT:

- Established circular business models with the transformation of waste into products with added value
- “Circular Economy Studio” investment in the function of motivation and experiential demonstrations of the possibilities of resource circulation
- Established cooperation with Norway for new opportunities at the national level for the systemic regulation of a circular approach to the use of resources in all sectors

Project duration: 1.5.2022 – 30.4.2024
