## INFO DAY 24.4.2023

### (D.C.5.2.)

On 24.4.2023, the 4th Info Day of the studioKroG project was organised as part of the Jurij Fair in Ptuj. The Info Day was organised with the aim of raising awareness and informing about the project activities and the importance of reuse and re-design of waste in the context of the circular economy.

At the info day itself, we presented the studioKroG project to the general public and the important role it plays in addressing the challenges of the lack of understanding of circular resource use. At the info day itself, we gave a visual demonstration of the first two equipped Circular Economy Studios, how the equipping and investment was carried out and what the studios look like now.

We also used the event to present the Norwegian Financial Mechanism itself.

To increase understanding of the circular economy, visitors at the Info Day were also able to take the Circular Economy Monitor survey, which they took first before we said anything about the project itself, the circular economy and the Norwegian Financial Mechanism. Later, they took a survey on how we explained their understanding of the circular economy, re-use, etc.
